

# **Company Profile**

For

**Shenzhen Metal Industries Limited**

**Specialized in metal accessories**

**Best Service**

**Best Quality**

**Best Price**

Shenzhen metal industries limited is an Oeko-tex certified for product class-1 and we are 100% export oriented garments accessories manufacturing company, specialized in copper, alloy based metal button and metal zipper with lead free ,nickel free, rust free ferrous free quality. We have a skilled production management and excellent quality commitment. As what we always do Shenzhen officer the most competitive price excellent quality and prompt delivery to buyers. Directors of Shenzhen metal have 15 years of technical, production and marketing background.

## **Service and Technical Support**

We are committed to services hence technical support like button attaching data sheet, punch mold, ensuring attachment quality on garments and other technical support is extended to our valued customer.

## **Quality Assurance**

There are 4 levels of inspection during the production process.

IQC: Stringent incoming quality control consisting of inspection on raw and

Component materials.

IPQC: Process inspection on production line.

FQC: Final quality control including functional test on all features in the Control.

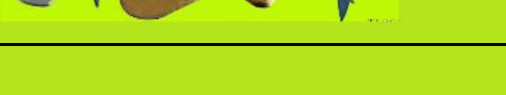

OQC: Outgoing quality control consisting of inspection before delivery.

## **LEAD THE INDUSTRY IN NEW ERA**

We are determined to manufacturer best quality metal button and metal zipper in Bangladesh with all test guaranteed. Trials & hardship all the way Shenzhen people will united as one and strike forward. We will compose a new chapter through our hard work and unremitting efforts....

# Running Production Items of the Company

## Metal Button Series (Copper)

SI #	Description of Items	Picture	Size	Color
01	Metal Jeans Shank Button		Available	Any Color In Plating & Painting
02	Metal Eye Hole Shank Button			
03	Metal Snap Button Spring Type			
04	Metal Snap Button Ring Type			
05	Metal Ring Prong Snap Button			
06	Metal Cap Prong Snap Button			
07	Pear Prong Snap Button			
08	Metal Cap Type Rivets			
09	Metal Nipple up Rivets			
10	Metal Nipple down Rivets			
11	Metal Eyelet			
12	Metal Hook & Eye Button			
13	Metal Hook & Bar			

## Metal Alloy Button Series (Alloy)

SI #	Description of Items	Picture	Size	Color
01	Metal Alloy Hole Button		Available	Any Color In Plating & Painting
02	Metal Alloy Shank Button			
03	Metal Alloy Snap Button Spring Type			
04	Metal Alloy Rivets			
05	Metal Alloy Sewing Button			
06	Metal Alloy Patch/Badge			
07	Metal Alloy Stopper			
08	Metal Alloy Buckle & D-ring			
09	Metal Alloy Suspender/Adjuster Buckle			

## Metal Zipper Series

SI #	Description of Items	Picture	Size	Color
01	Metal Zipper # 3, C/E Y Teeth.		Available	Any Color In Plating, Painting and Dyeing
02	Metal Zipper # 3 C/E Regular			
03	Metal Zipper # 4 C/E Regular			
04	Metal Zipper # 5 C/E Regular			
05	Metal Zipper # 4.5 YG			
06	Metal Zipper # 4 YG			
07	Metal Zipper # 5 YG			
08	Metal Zipper # 5 open end one way			
09	Metal Zipper # 5 open end two way			

**Total factory space 364500 sf. And total production floor is 50,000sf (around) and factory office 4000 sf.**

### **Molding Development Machinery:**

Total production space 3000 sf. with a production capacity of an average of metal button mold 16 sets and alloy button mold 06 sets daily by 16 hours basis. Which fully controlled by foreigner engineer and high technical Bangladeshi people who have more than 15 years working experience. Total latest machinery & equipments details are as bellow.

<b>SI #</b>	<b>Type of Machinery</b>	<b>Operation System</b>	<b>Number of Machine</b>	<b>Origin</b>
1	Mold development	Auto & semi auto	25 sets	China & Honking

### **Metal Button Machinery :**

Total production line space 20,000 sf. with a production capacity of an average of 10,000gross/1440, 000 sets daily by 16 hours basis. Total latest machinery & equipments details are as bellow :-

<b>SI #</b>	<b>Type of Machinery</b>	<b>Operation System</b>	<b>Number of Machine</b>	<b>Origin</b>
1	Mold Development	Auto & semi auto	21 sets	China & Hong Kong
2	Forming Machine C-Type	Fully automatic	10 sets	Hong Kong
3	Forming Machine U-Type	Fully automatic	18 sets	Hong Kong
4	Color Plating Machine	Semi auto	07 sets	China
5	Finishing Machinery	Auto & semi auto	22 sets	China

### **Metal Alloy Button Machinery:**

Total production line space 4,000 sf. with a production capacity of an average of 1500gross/216000 sets daily by 16 hours basis. And we have larges mold development unit with run by foreigner employee and high technical local people who have more than 15 years working experience. Total latest machinery & equipments details are as bellow.

SI #	Type of Machinery	Operation System	Number of Machine	Origin
1	Mold Development	Auto & semi auto	06 sets	China & Hong Kong
2	Button Injection Machine	Fully automatic	04 sets	China & Taiwan
5	Finishing Machinery	Auto & semi auto	14 sets	China

### **Metal Zipper Machinery:**

Total production line space 8,000 sf. with a production capacity of an average of 7000DZN/85000Pcs daily by 16 hours basis. And we have larges mold development unit with run by foreigner employee and high technical local people who have more than 15 years working experience. Total latest machinery & equipments details are as bellow.

SI #	Type of Machinery	Operation System	Number of Machine	Origin
1	Stamping Machinery	Fully Automatic	10 sets	Taiwan
2	Slider Making Machinery	Fully Automatic	12 sets	Taiwan
3	Finishing Machinery	Auto & semi auto	32 sets	Taiwan

### **Testing & Laboratory Facilities.**

We have internal laboratory facilities where we test all the incoming raw materials and finished product by our modern machinery and technical expert also we provide attaching mold and data sheet.

SI #	Type of Machinery	Operation System	Number of Machine	Origin
1	Metal Detector Machine	Fully Automatic	01 set	Hong Kong
2	Pull test Machine	Semi auto	01 set	China
3	Corrosion test machine	N/A	01 set	China
4	Washing Machine	Fully Automatic	01 set	China
5	Button Fastening Machine	Semi auto	01 set	China
